THE Evening Telegram, an independent daily newspaper is the latest venture at Scottsburg. It is published by John E. Scierp, of the Scott County Democrat, but the new daily is to be independent in politics. It is a neat, well printed five-column paper, and is the only daily published in Scott county.

Will Receive Pay.

The United States Court of claims on Tuesday rendered a decision which will affect Spanish American soldiers in Indiana, Kentucky, Tennessee and Louisiana. The amount in Indiana is about \$55,000. Among the recipients interested is the 161st, Col. Durbin's command, in which quite a number of Seymour young men were enlisted.

The Assistant Attorney General in behalf of the United States sought to establish the right of the Government to set off by a cross bill against the amounts due the volunteers for their service to the State prior to muster, the amount the soldiers had been paid by the United States paymasters. This contention on the part of the Government was denied by the attorneys for the state, who maintained that Congress had provided that volunteers in the Spanish war were entitled to receive their state pay and also their United States pay and denied the right of the Government to establish a set off. The court by a unanimous opinion sustained the contentions of the State's attorneys and in dismissing the Government's petition for a cross bill held that no deduction should be made from the pay due the soldier for any sum paid him by the United States while he was in the state service, thus sustaining the soldier's right to both his state pay and his United States pay for his enrollment period.

SUSPICIONS

Aroused by Stranger's Attempt to Cash Checks.

Last week a stranger who gave his name as Harmon, came into the city, with a great manufacturing scheme but his actions before he left led some to believe that he had another scheme in mind that he desired to work on some unsuspecting person with profit to himself.

After spending a day or two looking around he went to C. H. Hustedt to get an option on a piece of land in the northeast part of the city. He said he represented an eastern company with large capital that desired to build a large cerealine plant in the Indiana corn belt and thought here was the very place for it. The company he said would expend \$75,000 on the plant and would begin operations with seventy five men. This site just suited him and he was willing to pay the price. Finally he came around to close up the deal and had two drafts, or checks. They amounted to nearly \$300. He wanted them cashed and wanted Mr. Hustedt to cash them or help him get the money on them and he would pay him the cash for an option on the site. Mr. Hustedt had become suspicious and turned him down. But the stranger did not stop at that. He tried another plan. He went to J. G. Laupus and bargained for a fine watch. He went for the watch Saturday evening after banking hours. He did not have the surplus cash to pay for it but he still had the drafts. He wanted to have these cashed, but Mr. Laupus did not know the value of the paper and therefore passed them up and the man went away without the watch and that is the last seen of him here.

To say the least these actions have caused those who came in contact with him to doubt his motives and purposes. He was probably more anxious to get money on those drafts and then leave than to establish a manufacturing plant here.

Crop Conditions.

The weather bureau sends out the following bulletin this week relative to crop and fruit conditions over the state.

INDIANAPOLIS, IND., May 2, 1905.

Seasonable temperature prevailed, and a general rain on Tuesday and another on Friday night, interrupted farm work for a day or two each time and, in most localities, the ground was so wet during the entire week that but little plowing or planting was done. The rains were beneficial to all growing and planted crops however.

Wheat, rye, clover and timothy made good growth and promise good crops.

Early sown oats are up to a good stand and look vigorous, and oats sown more recently are coming up nicely, but there is yet a considerable acreage to be sown to that cereal.

Pasture grasses are growing well, and in the central and south sections are generally abundant.

Early potatoes and gardens are coming up and growing rapidly.

Plowing for corn has progressed slowly and in the south section a little planting has been done.

It is expected that an increased acreage of tobacco will be planted in the tobacco growing districts. The plants are doing well.

Reports regarding the prospects for fruit are more favorable than heretofore. Although practically all fruit on budding peach trees has been killed, and seedling peaches, cherries, plums and pears have suffered more or less in many localities, when the orchards of the State are considered as a whole the prospects seem good for an abundant crop of all kinds of fruit.

Eggs and Flour.

Mrs. C. J. Leidorf, who formerly lived in Seymour, had an unusual experience at Columbus Tuesday. Two little neighbor girls, who concluded to play "go-visiting" called and finding no one at the Leidorf home, entered the kitchen. They broke four dozen fresh eggs on the dining room floor and then sprinkled the contents of a sack of flour over them. After smearing about a dozen more on the gas range and turning on the burners they left. Upon Mr. Leidorf's return she discovered the damage and notified Marshal Horton, who soon found the children, who said they did not mean a bit of harm.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube be restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
